ABOUT THE INSTITUTE

Shine Abdur Razzaque Ansari Institute of Health Education & Research Centre believes that health is a fundamental right of all people and everyone has the responsibility towards maintaining their own health. The institution believes that nursing is to assist the individual sick or well in performance of those activities contributing to

health, its recovery or peaceful death that he would perform unaided if he had the necessary strength, will and knowledge. The institution believes that the teachers have responsibilities to be the role model and create learning environment that enable students to acquire self-directed learning and foster an attitude of lifelong learning

- To attain excellence in Nursing education and Nursing care that is to be imparted to the individual/family/community at various levels of working.
- To prepare nurses who can make independent decision in critical situations and facilitate innovative approaches in scientific health care system.

To prepare nurses with a sound educational programme so as to enable them to function efficiently as a member of health team in various health care settings.

- Conduct research studies in areas of excellence in nursing education and nursing practice with a view to generate new perspectives and to serve as a basis for higher nursing education.
